## Attenzione

- Quando si fissano carichi sulle barre Shanti è obbligatorio utilizzare la cinghia di sicurezza come mostrato in fig.4.
- Utilizzare solo accessori omologati
- Quando si è in marcia, prestare attenzione all'altezza totale.
- Non fissare carichi oltre la soglia di carico indicata (verificare prima la portata del tetto e delle barre portatutto).
- E' necessario rimuovere gli accessori che bloccano la scala prima di aprire CampUp (biciclette, portabici con binario, box, Kayak, etc..)
- E' comunque consigliato rimuovere qualsiasi tipo di carico prima di aprire CampUp.
- Fare attenzione alla testa quando il piano di CampUp è aperto.

## Attention

- When you secure loads on the Shanti roof bars,
- the use of safety belts is compulsory, as shown in pic.4.
- Only use homologated accessories.
- When marching, pay attention to the total height.
- Never secure loads beyond the indicated loading threshold (first check the capacity of the roof and the roof bars).
- It's necessary to remove the accessories who might block the ladder before opening CampUp (bikes, bike carriers with rail, roof boxes, Kayaks, etc...).
- It's still recommended to remove whatever type of load before opening CampUp.
- Pay attention at your head when CampUp platform is open.
